2004 Georgia Fruits & Nuts Report Introduction

The Center for Agribusiness and Economic Development has published the Georgia Farm Gate Value Report annually since 1999. As the depth and breadth of the survey has continued to grow, it has become evident that in order to properly value fruits and nuts grown in the State of Georgia, it is necessary to collect more in-depth information. Due to space restraints this detailed information cannot be published in the main annual publication.

The 2004 Georgia Fruits & Nuts Report highlights uses for which the fruit and nut commodities are grown. For instance, blueberries are grown for fresh or frozen use and are offered to the public as U-Pick, often commanding different prices and yields for each use. This report will detail the various acreage, yields, prices and values by county. The collected data is used extensively by the CES as well as by agencies and companies that support the fruit and nut commodities in Georgia.

Fruit & Nut Farm Gate Value: 2004

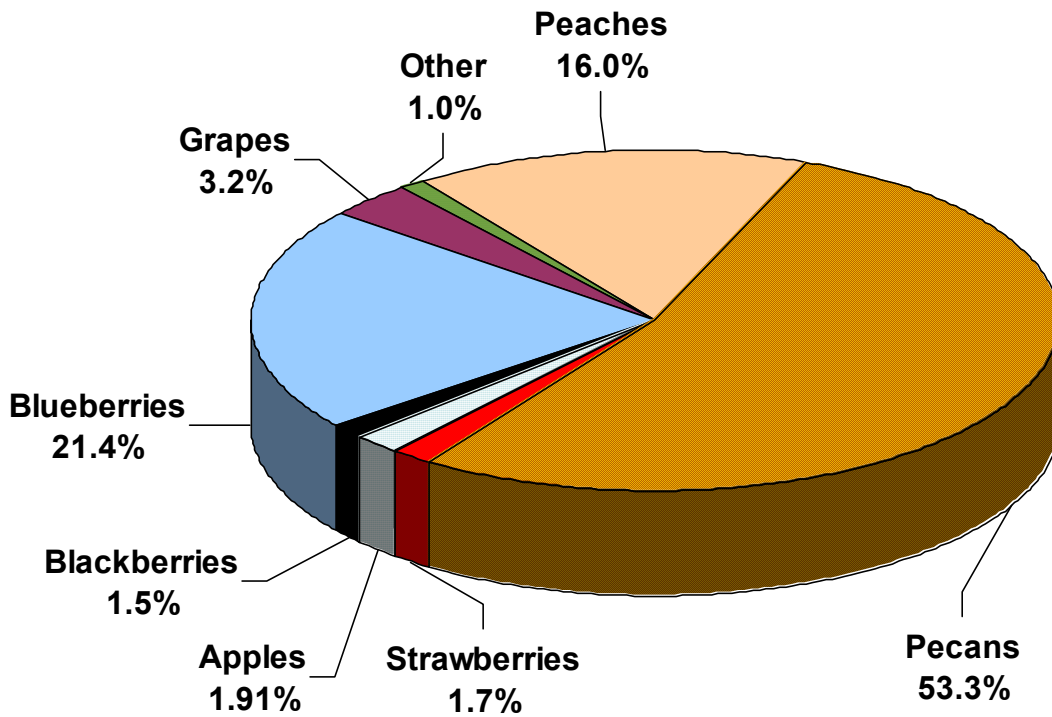

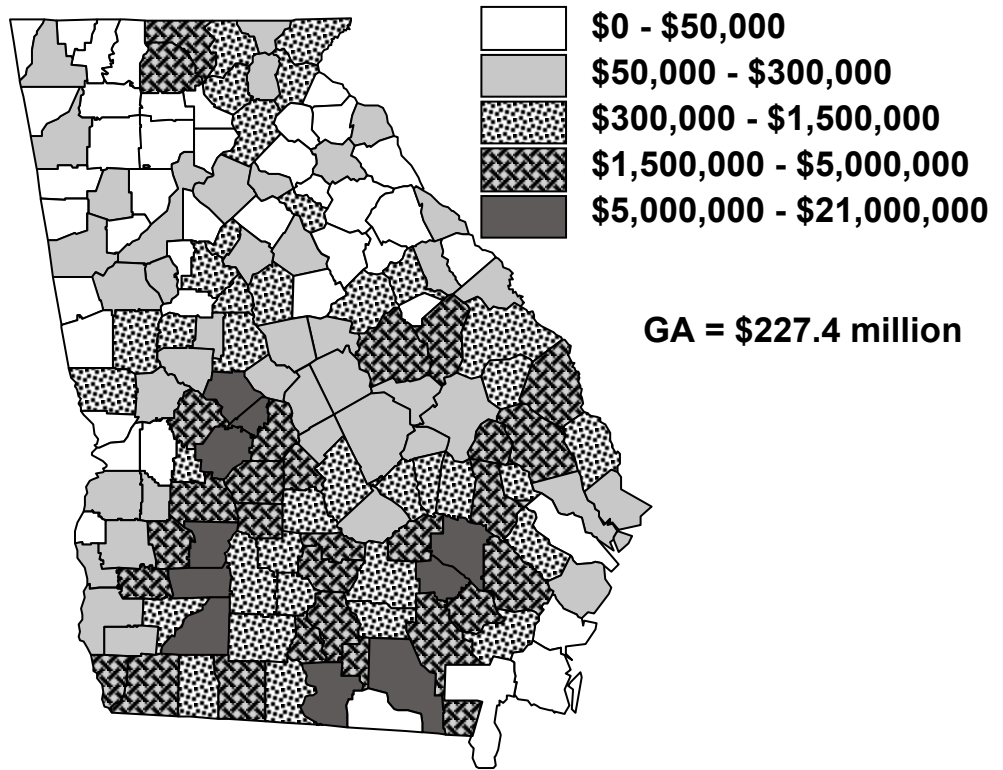

Table 1: Georgia Fruits/Nuts Farm Gate Acreage Comparisons: 2000-2004

<i>Crop</i>	2000	2001	2002	2003	2004	Change

STATE OF GEORGIA

The Center for Agribusiness and Economic Development

The Center for Agribusiness and Economic Development is a unit of the College of Agricultural and Environmental Sciences of the University of Georgia, combining the missions of research and extension. The Center has among its objectives:

- < To provide feasibility and other short term studies for current or potential Georgia agribusiness firms and/or emerging food and fiber industries.
- < To provide agricultural, natural resource, and demographic data for private and public decision makers.

To find out more, visit our Web site at: <http://www.caed.uga.edu>
