

Dean's Blog: Fall 2015 Welcome

 Rose Tahash

August 11, 2015

Another academic year is about to begin. In the College of Environment and Design (CED) at the University of Georgia, we teach design thinking, which draws upon rational problem solving and logic plus imagination, intuition, and creative reasoning. Through the design process, we seek elegant solutions to complex problems with a focus on making desired outcomes a reality. In the CED we apply the design process to search out solutions to environmental problems. And as a consequence, our students and faculty work to create socially responsible, economically sound, ecologically healthy, and aesthetically beautiful places for people.

NOW THAT'S A MISSION YOU CAN BELIEVE IN!

A handwritten signature in black ink, reading 'Daniel J. Madenich'.
